let me know if you need more information. In addition to the SQL groups, I can check who had access to the folders. "Han, Linda (DPH)" wrote:

Can you confirm what chemists had access to the evidence office database?  
Thanks,  
Linda

Evi Office electronic database (log report): JN had read only access; Della Saunders served as back up Evi Officer so she had full access; JN doesn't think other chemists had any access but we could confirm w/ Dina C. and Kip (IT staff person)
